NON-ACTION ITEMS

2. Walker Aviation Museum Foundation

Mr. Don Armstrong stated the museum has occupied two suites in the terminal for the last five years and have outgrown the suites. He stated the museum would like to move out of the terminal and build a stand-alone museum in Roswell, preferably at the RIAC. Mr. Armstrong said the museum has located 2.6 acres of land about a block east of the terminal and is hoping the Airport Committee and the City Council can provide them the area of land so they may build their museum. Mr. Armstrong said they intend to build 50' X 100' foot steel building at minimum. Mr. Armstrong said they have a dilemma

because they don't have any property. He said they cannot go out and raise money or ask for donations without having property. Mr. Armstrong said they intend to raise a million dollars. He said they believe they can raise the money between 18 to 36 months. Mr. Armstrong said what they are asking the City Council and the Airport Committee for is a five year option to lease property and what they think is fair for the five year period of time is \$500 to hold the property while the museum raises the money. Mr. Armstrong said after the five years is up and they built a museum they hope to renegotiate their lease for 25 to 30 years. Councilor Perry joined the meeting by telephone. Mr. Armstrong said what the museum can do for the City of Roswell is bring more people into the City which will generate gross receipt tax. He also said the location would improve the aesthetic in that particular area and thinks it would draw people to build new businesses in that area of RIAC. Mr. Armstrong also stated once the museum is open and they have warbirds on display he believes that will draw more people to the City of Roswell and to RIAC. He said they have plans to restore an F105 they would like to put on the property in the next two years so they may display something of Air Force. Mr. Armstrong said since the museum has been open they have had probably 3,500 people come through and they intend to increase that amount by the displays they are going to put in. He said one of the key issues the museum is going to bring is education to the children and young adults of Roswell. Mr. Armstrong said they intend to bring history not only to Walker Air Force Base, but the original Roswell Army Air Field flying institution that was built during World War II will remain vibrant in the City of Roswell and in the state of New Mexico. He said their plan is to build hands on devices for training for the young people of Chaves country. Mrs. Armstrong said the museum is working with the historical preservation office to place a historical marker by the highway near RIAC.

Ms. Brady said she received an email last night in regards to aircraft noise bothering some of the community. Ms. Brady said the last item to report is the Airport has received the SCASDP grant. 10. Property Manager's Report Accounts Receivables – Mr. Stark reported for accounts receivables is about the same as last month's. He said he met with members of their Board Authority, Director of Finance, Administration, and with the Executive Director of the Airport. He said from the day the Air Force gave it over to the City it was a little different structure and he would like to comment on some of the parts that he was impressed with. He said one rule there is that they make money on everything. He said one thing they were doing was

agriculture between the runways. He also said they had the same environmental issues that we face and they sued the Federal Government and won. Mr. Mulcahy said they were recommending some of these things to him. He said they take no tax payer money for anything they do there. He said they do not let the hangars decay. They do their own lease hold improvements and they do not do rent abatements at all. He said they do not store anything it is not considered to be best use of those facilities and they don't have an inventory tax. He also said they have dedicated a hangar they use as a Sport Facility because it would generates more jobs. Mr. Mulcahy said it is thinking outside of the box, it is saying how can we do stuff with these hangars, keep them in the best shape possible, build our own building to suit, but always look for revenue. He said the hangar rent they had available was \$6.15 a square foot. Mr. Mulcahy said he would bring more information and stated Roswell has a heck of a facility here. He said they did not have anything like we have in terms of big hangars. He said they took every single building and built on the air base. They took advantage of their industrial zoning and turned it into a world class money making type place.

Mr. Mike Clarke commented on perhaps having Air Shows, because of the facilities here. He said it would be a big draw. He said in the Dallas area people would come from hundred miles around for both military and private shows. He said with all the airplanes parked and working in the area it would be a great opportunity for a fund raising type of event for the City and continue to build events to draw people to the area.

ADJOURN

Councilor Sanchez motioned to adjourn. The Chair seconded. A voice vote was unanimous and the motion passed. The meeting adjourned at 8:48 a.m.
